## Building Permit Applications 2024

Building permit applications can be a complicated procedure for those that have never applied before. Some important items to consider when applying are as follows:

The Township's zoning by-law is one of the laws that your proposed structure will be reviewed against. In many circumstances (particularly with waterfront lots) a pre-consultation with the townships planning and building departments can answer any questions you may have and avoid costly mistakes prior to construction.

The items in the list below may be required for a complete permit application. Upon review of the application, the Building Inspector may require further documentation or clarification.

1. Zoning Clearance Certificate must be approved by the planning department. (\$80.00 fee application is in package)
2. Completed application for a permit to construct or demolish
3. Plot plan showing distances from lot lines, high water mark, septic systems, buildings, and buildings use. This includes all barns within 750m.
4. A complete set of drawings (11x17 preferred), showing floor plans, elevations, cross sections, roof layout etc.
5. A copy of any engineered drawings (trusses, floor joists, slab on grade, glass guards, etc.)
6. Copy of deed or tax bill
7. Setback/Occupancy Waiver Form
8. On-Site septic approval
9. Energy Efficiency Design Summary
10. HVAC Design
11. Civic address and/or entrance permit from public works department. (Payment must accompany entrance permit application)
12. Well records (when requested)
13. Survey of property (when requested)
14. Drainage plan showing method for dealing with surface drainage on property (when requested)
15. Conservation Authority, Min. of Natural Resources, Agriculture, Environment (Where applicable)
16. CSA Certification for buildings or parts of buildings prefabricated or manufactured off site (Where applicable)
17. Permit fee (\$17 per thousand dollars of construction value), \$115 min. fee due with application and applied to permit cost. The remainder is due when permit is picked up.

### Notes:

1. Permit must be posted on site within view.
2. It is the sole responsibility of the applicant/owner to ensure that all inspections are completed.

3.48 hours' notice is required for all inspections.

4. Electrical permit may be required from Electrical Safety Authority (1-877-372-7233)

**5. All permit applications must be complete before we can review them.**
